

Religious Education Scheme of Work

The Curriculum

The curriculum has been developed by using and widening the National Curriculum in order to produce a broad and balanced progressive, sequential long term plan with consideration of the local area and resource. All aspects of which comply with legislation and national guidance, this includes the teaching of Careers Education, Information, Advice and Guidance (CEIAG) across school.

Religious Education

The **intent** of our RE curriculum is to deliver a curriculum which is accessible to all and will inspire **happy, confident, independent learners** who are **prepared for adulthood**. As a result of this they will:

- Be offered opportunities to learn about and from religions and worldviews in local, national and global contexts.
- Increase their knowledge and understanding of world religions.
- Increase and develop their ability to ask challenging questions as well as discovering, exploring and considering different answers to these questions.
- Develop their interest in the beliefs and practices of others and how this influences their lives.
- Be encouraged to develop respect and acceptance for all.
- Develop and use their skills in critical thinking and self-reflection.
- Develop a sense of identity through learning about community and spirituality, diversity and tolerance in preparation for a changing society in adulthood.
- Be supported in becoming responsible and independent members of society.

From the long term plan a scheme of work has been produced and **implemented** which has high and equal aspirations for all learners and incorporates:

- **PFA links**
- **Cultural Capital links**
- **Reading opportunities**
- **Key Vocabulary**
- **Planned differentiation, Resource, Support or activity**

Class groups are based upon English ability; therefore, each RE group has a wide range of abilities. With this in mind, each unit planned has a set of progressive and sequenced skills and knowledge objectives at three levels - **Observers, Questioners, Debaters**. This allows us to differentiate, challenge and extend all of our children in each class no matter their ability.

Long Term Religious Education plan

The curriculum that is in place is based upon two things:

- 1) RE that lead to achieving **the school's intent** - to deliver a curriculum which is accessible to all and will inspire **happy, confident, independent learners who are prepared for adulthood**.
- 2) RE that is relevant, usable and **supports individual learning needs** of students at Epinay School.

In order for us to achieve this, we have based our scheme of work on the following **3 Key statements** across the academic year.

1. To enable students to have an insight into a range of beliefs and practices, held by people across the world, and how they can live together in harmony.
2. To provoke challenging questions for our students on how spiritual, moral, social and cultural viewpoints impact upon life experiences and their understanding of the world in which they live.
3. To develop respect and empathy of both themselves and others.

At Epinay school there are a range of students with complex needs. 100% of students are diagnosed as having a learning difficulty/disability, within this a large % of students are diagnosed as having ASD, MLD and SLD (May, 2022). These developmental disabilities can cause significant social, communication and behavioural challenges. They affect how a person acts and interacts with others, communicates, and learns.

For this reason Religious Education activities have been carefully chosen to reflect this. Students generally have difficulties in the following areas:

- Accepting social and religious differences (ASD fixed mind set)
- Accepting and respecting the beliefs of others.
- Showing and understanding empathy (ASD)

The scheme of work has been designed to ensure students can develop these areas, whilst also ensuring Religious Education at Epinay is inclusive for all learners, and that they can take part in all lessons with a varied degree of differentiation and support.

A rationale as to why each element of Religious Education is included, whilst also looking at progression of skills and knowledge throughout each phase. We are mindful that in mixed ability classes there are students of varying abilities in RE, therefore students will progress through the skills and knowledge at an appropriate and challenging pace, with the overall intent being that they are working towards the 3 key RE statements and are ultimately prepared for accreditation at phase 4 and on into adulthood.

Progression of skills and knowledge

Phase 1 – Students work towards meeting phase 1 targets based on child initiated learning and good practice.

Phase 2 & 3 - Students build on the skills knowledge gained in phase 1 and work through progressive objectives

Phase 4 - Students are in a place to use the skills and knowledge gained in Phase 2 and 3 to begin a chosen qualification route, this may be NOCN level 1/2/3 in general religious education.

Phase 5 - Students are in a place to use the skills and knowledge gained in Phase 4 to achieve a higher level of qualification if it is their chosen pathway but do not access core RE sessions.
